Australian Tunnelling Society - 2021 Update

Hear about current activities of the
Australian Tunnelling Society

Please join this ATS session where some of the leadership team will take time to describe some current initiatives.

Please join ATS President Harry Asche, Victorian Chair Richard Buckingham and Victorian committee member Nadine Makin for this technical session.

The session will include a presentation from Harry on initiatives underway at executive level that aim to provide improved value to ATS members and improved visibility and quality of the offering that we provide to our valued ATS sponsors. Members are encouraged to participate in the initiatives.

Both Richard and Nadine will give an update on aspects of the ATS2020+1 conference which is due to be held in Melbourne from May 10th to 13th. Richard will give an overview of the conference and describe some key activities in the program. Nadine will introduce the newly establish Women in Tunnelling award.
